Dear Mr. Poulson:

Re: Brush Wellman Inc. Topaz Mining Property, ACT/023/003,
Juab County, Utah

In response to a question from Morrison-Knudson, consultants to Brush Wellman, the Division has recently reviewed information submitted for the Topaz Mining Property operated by Brush Wellman, Inc. Several deficiencies in the information required by the Division were found. At your earliest convenience, we would like you to discuss the following areas of concerns with the Division:

1. Brush Wellman has not posted bond to the Division and consequently has no final approval of their mining permit.
2. Annual operations and progress reports as required have not been submitted to the Division. MR Form 3 (attached) must be submitted to the Division at the end of each calendar year.
3. Mining plans, maps and reclamation plans for the mining operation currently on file with the Division are out of date and insufficient to finalize permit approval.

Would you please contact the Division within 15 days to make arrangements for a meeting to discuss these deficiencies. In the meeting, we shall discuss these problems in more detail and will hopefully be able to establish a timeframe in which both Brush Wellman and the Division can meet the obligations required under the Utah Mined Land Reclamation Act.
